

[My Portfolio](#)

About Me

I am a native Texan living in NY for 22 years. I am semi-professional violinist and work as a programmer for an automation company in NYC.

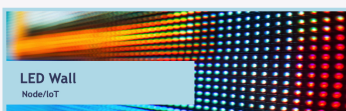

I have played violin for 38 years. I mostly play orchestral music and chamber music. I also am on the board of several musical groups in Westchester County, NY.

My plans for my future are to continue to work as a programmer and learn more of the field, in order to make myself more marketable.
